FINE CHOCOLATE COUVERTURE

1000 g couverture in the shape of mini light bulbs
1000 g block
ORGANIC + FAIR + BEAN-TO-BAR

Fine-flavour couvertures will add delicious taste and variety to your kitchen. We present 8 fine-flavour couvertures with cacao contents from white couverture up to 100% cacao. This pure 100% fine-flavour couverture opens a multitude of possibilities for pastry chefs, as it is such a flexible material - combine it with milk or sugar, stevia, birch sugar or honey to modify sweetness. Our 100% fine-flavour couverture is the perfect secret sauce to elevate your creative ideas.

We offer 4 vegan couvertures as well as 3 innovative fruit couvertures straight from Maison Zotter, that will allow you to create entirely novel colour and flavour variations, such as a bright red strawberry couverture, whose fruity flavour and stunning colour are derived entirely naturally from fruit alone. There's also some food for new thought in the shape of our two fragrant and flavour-intense coffee and caramel couvertures, as well as exciting alternative varieties sweetened just with date and maple sugars. Let us inspire you!

Fine-flavour couvertures are created, **bean-to-bar** – from the bean to the finished product – at Zotter's chocolate factory, and consist of nothing but supreme-quality and fair traded, organic raw materials such as pure cocoa butter without any foreign fats, genuine Bourbon vanilla instead of vanillin, organic mountain milk and fine-flavour cacao with a guarantee of origin, produced by committed cacao farmers who put lots of dedication and love into their work.

Fine flavour couvertures come in a classic block or in the more practical shape of small light bulbs, making tempering and measuring out quantities much easier.

ORGANIC & FAIR

Fair traded organic fine flavour cacao from 16 different countries – team spirit & fair trade with our cacao farmers are the basis of our sublime quality products.

100% ORGANIC + FAIR + BEAN-TO-BAR

Our entire business is Fair Trade verified. We are a member of WFTO – the World Fair Trade Organization, which is the umbrella organization for global fair trade. The WFTO monitors business compliance with the 10 principles of fair trade like transparency, respect for the environment, the payment of fair prices and no use of child labour among others. For more on this, go to

www.zotter.at/fair-trade and www.wfto.com

100% BEAN-TO-BAR: Zotter chocolates are produced starting from the bean in our bean-to-bar chocolate factory.

All the ingredients for the chocolate come from ORGANIC cultivation.

The number of the organic board of control serves as identifying information. ORGANIC control number: **AT-BIO-402**

WFTO - LABEL OF EXCELLENCE

The independent NGO "Südwind" has closely examined all the WFTO's current ecology, transparency and social effectiveness credentials and has designated it exemplary in terms of credibility and social issues. The World Fair Trade Organization (WFTO) is the international umbrella association for more than 400 fair trade organisations in around 70 countries. In Austria, members of the WFTO are **ARGE Weltläden**, **EZA** and **Zotter**.

In contrast to the Fair Trade label, the WFTO label isn't purely a product certification but has instead been created to designate organisations whose core business is fair trade. As a member of the WFTO, we are delighted to have received the label's highest score.

You can find the independent label check online by clicking here:

<https://siegelcheck.suedwind.at>

THE PROTECTION OF THE ENVIRONMENT

is a very important aspect of our corporate philosophy.

Our environmental protection and our environmental measures are ISO 14001 and EMAS certified. EMAS-certified companies are recorded in a Europe-wide register and are regularly checked and monitored on a national level by environmental experts approved by the environment department.

You can find our environmental declaration in German online at www.zotter.at/umwelt

BIOGENIC PACKAGING & BIOPLASTICS

Around 90% of our packaging is biogenic and made from renewable raw materials.

We use certified paper from sustainable sources and environmentally friendly colours for all our packaging. For the most part, we use bioplastics, which consists of renewable raw materials, is biodegradable and even compostable, compliant with the EN 13432 standard.

DESIGN

Andreas H. Gratze (A-H-G), Zotter's art director has created our beautiful designs with pen and tons of humour since 1994. www.a-h-g.at

ORGANIC SOY LECITHIN

We use soy lecithin from controlled organic cultivation in white and milk chocolates. Soy lecithin is guaranteed non-GMO and environmentally friendly, as no part of the rain forest is destroyed for its cultivation. Our dark chocolate does not contain soy lecithin.

STORAGE ADVICE

We do not use any artificial stabilizers or preservatives. For this reason, our goods are more temperature sensitive than other high-quality chocolate products.

Ideally you should store Zotter chocolates in a cool and dry place where the temperature is between 16 °C and 18 °C.

You should not put the chocolates into a fridge. This way they would lose their substance because the humidity would let the sugar crystallise. If the temperature is too high, though, it will result in the emission of cocoa butter which will settle as a white film on the surface of the chocolate. The loss of the cocoa butter will dry out the chocolate – hence, the flavour of the chocolate will suffer.
